May 2, 1984

The Honorable William J. Casey
Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Director Casey:

Thank you for your recent letter inviting the Vice President to meet with a group of people from the CIA's Career Development Course in late-May or early-June.

Unfortunately, the Vice President's schedule is so extremely crowded during the next few months that he will be unable to speak to the group. The Vice President has asked that I express his appreciation for your thinking of him and extend to you his best wishes.

Sincerely,

Jennifer A. Fitzgerald

The Vice President
The White House
Washington, D. C. 20500

Dear Mr. Vice President:

On behalf of Mr. R. E. Hineman, Deputy Director for Science and Technology, let me convey an invitation to you to meet with what promises to be an exciting group of people. You may recall that the Directorate of Science and Technology organizes and conducts a Career Development Course to enhance the careers of selected, bright, energetic middle-management people from throughout the CIA. The goal is to open new vistas for these individuals and inspire them. The group would be limited to 16 to 20 people. []

25X1

It has been suggested that a brief meeting with an individual with your broad perspective of the community could enrich this experience for them immeasurably. []

25X1

The DS&T Director of the CDC has been in touch with Mr. G. Philip Hughes, your Deputy Assistant for National Security Affairs, in this regard; Mr. Hughes encouraged him to pursue the possibility through this invitation. []

25X1

In acknowledgment of your strenuous schedule, the D/CDC and Mr. Hughes have left the possible timing of such a meeting open. There are preferred time windows, of course; the weeks of 28 May or 11 June are best, but the schedule is flexible yet. []

25X1

I would encourage an informal address or a discussion on critical intelligence issues with your executive view of Intelligence Community responsiveness. []

25X1

I hope you are amenable to this idea and will designate someone to get in touch with the D/CDC, [] (Secure), to resolve the details of timing, location and format. []

25X1
25A1

Respectfully yours,

DDS&T-131-84

MEMORANDUM FOR: Director of Central Intelligence

FROM: R. E. Hineman
Deputy Director for Science and Technology

SUBJECT: Proposed Briefing by the Vice President to
DDS&T Career Development Course No. 26

1. As you are aware, the DS&T sponsors a three-month course to expose promising employees in the middle grades to the broader needs and interests of the larger Intelligence Community.

2. The current director of the Career Development Course (CDC) has suggested that, beyond your traditional meeting with this group at the end of the course, a further enhancement would be enjoyed by inviting the former DCI and current Vice President of the United States to meet with the members.

3. This course of action is contingent on your approval, of course, but I think you can appreciate the strong additional motivation and inspiration which this exposure would instill in these select employees. The D/CDC would expect guidelines from you on sensitive topics or issues. Such protocol and guidance would be strictly adhered to.

4. The attached invitation was prepared for your signature if you agree with this concept.

R. E. Hineman

The attached memos are:

1. A request from the DDS&T to the DCI to tender an invitation to the Vice President to meet with/ address CDC-26, and
2. An exemplar invitation.

Background:

Mid-Jan - C/CDS/DDS&T and DDS&T reaction to concept favorable.

Initial contact at White House with Mr. Philip Hughes was encouraging. I briefed Mr. Hughes on CDC, stressing group profile, access and general status of course in CIA. Queried if I preferred "prepared remarks" or to "just sit around and chew the fat," I responded that we wouldn't want to ask unexpected/unwelcome questions but most informal venue would be best. Mr. Hughes said not to expect an hour; would have to be at White House (probably) and should be flexible on timing. I suggested a theme topic of "an executive or White House view of the IC with reflections on his perceived changes." Mr. Hughes and I discussed invitation/memo protocol briefly; Mr. Hughes would convey this background info to the VP when invitation received.

Thinks it may be favorably treated.

Have reviewed Mr. Philip Hughes' bio data and arranged for him to brief CDC-26 on overview of NSC and his role as Dep Asst to the VP for National Security Affairs. DDS&T and ADDS&T may wish to meet him (?).
